Napa 4-H is excited to welcome Dr. Quinton and Elizabeth Martins for a fun evening learning about the exciting research conducted by the Living with Lions organization. We will hear about what the mountain lions in our region are doing, what they need and where they travel. We will discuss benefits of using farming methods that allow successful co-existence with wildlife, and ways in which 4-H clubs can partner with the Living with Lions project and share ideas to help protect our ecosystem and keep our livestock safe.

RSVP with # of Attendees: Rutherford4H@gmail.com / 949-842-4499

4-H Project Opportunities!
